

## How to make PIZZA without dough, sauce, cheese, or pepperoni

What do you do when you're hungry for this ↙

but have none of the ingredients or tools to make it?

You improvise!

And this is how the ladies at the 33<sup>rd</sup> St Jail get the job done:

1. Buy (with money friends or family members put in your account) from the commissary: 3 packages of Ramen Noodles, Saltine Crackers, a pouch of Chili, dill pickles, mayonnaise packages and assorted chips.
2. "Cook" the ramen noodles by opening the pouch and adding hot water. Remove your id badge from your uniform and use the clip to hold the package shut while the noodles steep. Repeat for each package.
3. Meanwhile take an empty foil-lined package of potato chips and carefully open it flat. This will be your pizza pan.
4. Back to the noodles – when they are soft, open the packages and drain the liquid. Put on the noodles on the "pan."

5. Crush one sleeve of saltine crackers and add to the noodles. Knead thoroughly. Pat the dough into the desired shape. This is your crust.
6. Open the pouch of chili and spread over the crust. A package of mustard may be added to the chili for an extra tangy taste.
7. Crush your cheese-flavored chips and spread over the chili.
8. Cut dill pickles into small pieces and spread over the chips
9. Drizzle the mayo over the top.

**To serve...use your ID badge to cut the pizza into 8 slices.  
Enjoy!**
